

Exhibit D

The image shows the homepage of the AXS website. At the top, there is a dark blue header bar with the AXS logo, a "Sign in" button, and categories for "MUSIC", "ARTS & FAMILY", and "SPORTS". A search bar with the placeholder "Search by Artist, Event or Team" and a location dropdown set to "Chicago" are also present. The main content area features a large, blurred background image of a concert with a person's hand raised. Overlaid on this are the words "Events. Tickets. Moments." in white. Below this, a text block explains the use of the AXS Mobile ID app for ticketing and event discovery. Two download links are provided: "Download on the App Store" and "GET IT ON Google Play". To the right of the text is a white iPhone displaying the AXS mobile application interface, showing a list of upcoming events and a concert photo.

How do I use my AXS Mobile ID to enter the venue?

AXS Mobile ID digital tickets are tickets you use with your phone – like e-tickets or mobile tickets from an airline or movie theater -- they make getting in easier than ever.

Simply show your tickets on your phone using the AXS app to enter the venue.

Select AXS Mobile ID as your delivery method when buying tickets (it's free!), and then follow these simple steps to use them:

1. Get the AXS app if you haven't already.
2. Open the app and sign in to see your tickets.
3. Show the tickets in the app at the gate and get them scanned to enter.

If you're going with a group, make sure everyone enters together, or transfer tickets to friends before the event.
